## Web Developer

tristan.wf.wong@gmail.com | 647-400-1958 | tristanwongg.github.io/portfolio | github.com/TristanWongg

## Projects

### Trispy Fades

A barbershop web app for booking haircut appointments, inspired by my personal hobby. Users can create and make changes to their appointments through front-end requests that are linked to back-end CRUD operations, which retrieves the data from a database and returns it to the user. Implemented using the MERN stack (MongoDB, Express, React, Node.js).

### Portfolio

Front-end web app to showcase my skills and personal projects. Implemented using React.

## Work Experience

### HVE Healthcare Assessments

QA File Reviewer

April 2019 - present

- Pre-review accident benefit claims to provide assessment recommendations in accordance with the Customer Service Level Agreements (SLAs) for accident benefit adjusters
- Utilizing SmartSimple's cloud-based automation software and Wisedoc's AI powered automation platform to process medical file documents for various medical professionals ahead of their assessments
- Communicate with colleagues, adjusters, and medical professionals daily to ensure that the necessary medical documentation is processed in a timely manner

### University of Toronto

Athletic Service Attendant / Intramural Game Manager

2017 - 2019

- Managing sports bookings and equipment rentals as well as inquiries about facility programs and events
- Facilitating various intramural sports games. Responsibilities included signing in participants, recording game results, and providing first-aid

### Salon Kreative

Barber

2018

- Providing quality haircuts, hot towel shaves, and a creative styling experience

## Skills

### Programming Languages

JavaScript, HTML, CSS

### Libraries & Frameworks

React, Node.js, Express, MongoDB, Axios, Swiper.js, Framer Motion

### Tools & Platforms

Git, GitHub Pages, Railway, Render

## Education

### Algoma University

2021-2022

Bachelor of Computer Science, Accelerated 2<sup>nd</sup> Degree Program

### University of Toronto

2014-2018

Bachelor of Kinesiology

## Interests

Basketball, hiking, haircutting, travelling, food, coffeshops
